

Regarding: Pappas Telecasting Company

Curiously, Pappas has admitted making a 'donation' of \$325,000 in airtime to Republican candidates in certain station areas.

This act is so UNFAIR as a means as to call into question the legitimacy of their Ends in doing so.

Since Pappas is managing a public resource free of charge and is obligated by law to serve the public interest, I urge that this deliberate and managerial act be recognized as a forfeiture of any continued or future use of the public air waves by Pappas.
